tico 735A

Self-Powered Counter 750

Process Indicators

- > Process indicator for AC/DC Voltage, DC Process and as a general display
- > DIN size: 48 x 96 mm
- > "Awesome" 18 mm high digit LED display with 2 colours programmable
- > 90-264 VAC, 20-50 VAC/VDC
- > Up to 2 relays
- > Optional Communication interface RS 485
- > With 4-20 mA analog output
- > UL Certified

- > Display unit for Process Automation
- > Control panels
- > Laboratory equipment
- > Pharmaceutical processing machines"

- > Process Automation
- > Food and beverages
- > Chemical

Self-powered Counters

- > Simple, innovative and cost effective
- > ATEX certification for Gas
- > Fully customizable product according customer application
- > No power supply required
- > Extreme shock and vibration resistant
- > Most compact design of its class: 36.5 mm mounting depth and 28 mm diameter
- > Suitable for all fluid media types: water, gas, etc.
- > Applicable as for preventive maintenance tool for counting cycles of an equipment or tools
- > Easy and fast field installation
- > Fraud protection
- > Various communication protocols applicable: NAMUR, HART, MBUS, Wireless

- > Electronic consumption data acquisition in custom gas meters for areas exposed to explosive hazards
- > Gas meters
- > Systems for preventive maintenance

- > Factory automation
- > O&G
- > Water and fluids metering

635 AC mini "iw"

634/635 DC mini "i"

Electromechanical Counters

- > Small AC voltage counter (50 and 60Hz)
- > 6-digit
- > Without reset function
- > Small mounting dimensions
- > Low power consumption
- > Easy to install
- > Protection class IP 66

- > Various machines
- > Electrical machine installations

- > Factory automation
- > Machine building

Electromechanical Counters

- > Incremental totalizing counters
- > 6- or 7-digit
- > Various DC versions
- > Without reset function
- > Type 634: high magnetic resistance
- > Type 635: high shock stability
- > Low power consumption
- > Standard electrical connections
- > Suitable for PCB mounting
- > Machine-solderable and washable (type .1 and .3)
- > Protection class IP65, IP66
- > Models with extended temperature range available

- > Small machines
- > Gaming
- > Petrol stations

- > Factory automation
- > Machine building
- > Elevator

635 AC/DC mini "i" DIN

636 DC hour meter - **NEW**

	Electromechanical Counters	Electromechanical Time Counters
Key specs	<ul style="list-style-type: none"> > Totalizing counters > 6- or 7-digit > Various AC, DC and AC/DC versions > Without reset function > Low power consumption > DIN-rail attachment > Wide voltage range > Screw-type terminals 	<ul style="list-style-type: none"> > Time counters > Standard cutout size 37x24mm > 7-digit > 5 - 30 VDC > Without reset function > Best-in-class mounting depth of 44mm > Fully sealed - IP 67 > Wide temperature range > Low power consumption > Standard electrical connection - 6,3mm [1/4"] male blade
Fields of application	<ul style="list-style-type: none"> > Switches or any counts measuring in switch cabinet installations > Electrical machine installations > Elevators 	<ul style="list-style-type: none"> > Agricultural vehicles and machines > Diesel generators > Compressors > OHV's

150

205/110/111/312

Mechanical Counters

- > Revolution counter, transmission ratio 1:10
- > 6-digit
- > Robust and durable design
- > Length counter, transmission ratio 1:2, stroke counter, transmission ratio 1:1
- > Actuation on both sides, right or left and both directions
- > Surface mounting
- > With button reset
- > Size: 80 x 45 x 43,5 mm

- > Small handling machines
- > Production assembly hand operated presses
- > Various measuring and counting devices
- > Piece and/or stroke counting for punches or presses
- > Length measuring of cables, foils, fabrics, metals, bands, ropes, paper, etc.

- > Factory automation
- > Machine building

Mechanical Counters

- > Type 205: Length measuring counters
- > Type 110/111: Revolution counters
- > Type 312: Stroke counters
- > 7-digit display
- > Large 8 mm digits
- > Actuation on both sides and both directions
- > With key reset
- > Size: 132 x 69,2 x 74,2 mm

- > Various length measuring and counting devices
- > Length measuring of cables, foils, fabrics, metals, bands, ropes, paper, etc.
- > Production assembly hand operated presses
- > Piece and/or stroke counting with quantity setting for punches or presses

- > Factory automation
- > Machine building

250

ENM UN/Tampons

Mechanical Preset Counters

- > Preset revolution, length and stroke counters
- > 5-digit
- > Large 6,5 mm (0.3 in)-high digits
- > Robust and durable design
- > Transmission ratios 1:1, 2:1, 1:5
- > Large and easy operated preset buttons
- > Button reset, secured against accidental operation
- > Actuation on both sides
- > Surface mounting
- > Size: 132 x 69,2 x 74,2 mm

- > Various length measuring and counting devices
- > Length measuring of cables, foils, fabrics, metals, bands, ropes, paper, etc.» Production assembly hand operated presses
- > Piece and/or stroke counting with quantity setting for punches or presses

- > Factory automation
- > Machine building

Automatic Numbering Machines

- > Universal self-inking numbering machines
- > Automatic version: numbers change automatically in 8 different settings: repeat, consecutive, 2-, 3-, 4-, 5-, 6- and 12-times repeat
- > Manual version: number change is done by operator manually by a lever
- > Different fonts and digit sizes available
- > Available in plastic or full metal versions
- > Inking tampons with durable and high quality ink

- > Document numbering in offices or production facilities
- > Identifying processed documents - orders, job tickets, WIP cards, despatch sets, shipping documents, etc.

- > Various office work areas
- > Customs
- > Document processing
- > Archives

495 Pneu

499 Pneu Timer and Reset Module

	Pneumatic Counters	Pneumatic Timers
Key specs	<ul style="list-style-type: none"> > Pneumatic totalizing counters > 6 or 8-digit display > Versions for flush and surface mounting > Manual, pneumatic or without reset > Hose coupler M5 or rapid-fit connector > Simple installation > Maintenance-free operation > ATEX certified versions available for Gas, Dust and Mining 	<ul style="list-style-type: none"> > Preset timers in various time ranges > Convenient setting of preset value by rotary knob > Preset and remaining time values continuously visible > Precise time preset 0.2 s to 300 s > DIN dimensions and optional for DIN-rail mounting > Maintenance-free operation > Hose coupler M5 or rapid-fit connector > Pressure-independent > No continuous air supply required > ATEX certified versions available for Gas, Dust and Mining
Fields of application	<ul style="list-style-type: none"> > Quantity counting > Order and daily production value recording > Packaging unit control > Dosing and filling (resins, liquids, powders, etc.) > Production assembly hand operated presses 	<ul style="list-style-type: none"> > Pneumatic applications with fully automatic time control > Automatic door control units for passengers vehicles > Time control with manual intervention > Industrial transportation systems (eg. for fine powders also with combustion risk) > Oil and gas areas > Dosing and filling (resins, liquids, powders, etc.)

497 Preset Counter

497 Preset Timer

	Pneumatic Preset Counters	Pneumatic Preset Time Counters
Key specs	<ul style="list-style-type: none"> > Preset totalizing counters > 3- or 5-digit > Adding or subtracting versions > Convenient button setting > Preset constantly visible (in adding mode) > 2 - 8 bar > Hose coupler M5 or rapid-fit connector > Front panel installation > Button and pneumatic reset, automatic reset > Integrated pneumatic reset > ATEX certified versions available for Gas, Dust and Mining 	<ul style="list-style-type: none"> > Preset time counters > 3 or 5-digit display > Seconds and Minutes versions > Preset values continuously visible > Hose coupler M5 or rapid-fit connector > Integrated pneumatic reset > Optional automatic reset > Convenient button setting > Maintenance-free operation > ATEX certified versions available for Gas, Dust and Mining
Fields of application	<ul style="list-style-type: none"> > Pneumatic fully automatic control systems > Industrial transportation systems (eg. for fine powders also with combustion risk) > Oil and gas areas > Dosing and filling (resins, liquids, powders, etc.) > Chicken vaccination devices 	<ul style="list-style-type: none"> > Pneumatic applications with fully automatic time control > Clock generator > Time control with manual intervention > Compressors > Paint spaying machines > Industrial transportation systems (eg. for fine powders also with combustion risk) > Oil and gas areas > Dosing and filling (resins, liquids, powders, etc.)
Verticals	<ul style="list-style-type: none"> > Factory automation > Food & Beverages industr > Chemical" > Railway > O&G 	<ul style="list-style-type: none"> > Factory automation > Food & Beverages industry > O&G > Chemical

490 Pneumatic Proximity Switch

Pneumatic Proximity Switches

- > Touchless switching
- > Small dimensions
- > Switching between magnet field and Fe
- > No continuous air supply required
- > ATEX certified versions available for Gas, Dust and Mining

- > Pneumatic automation devices
- > Detection of position of pistons at end positions
- > Material transportation and packaging lines
- > Purely pneumatic cylinder limit switches

- > Factory automation
- > Food & Beverages industry
- > O&G
- > Chemical

Accessories

General

- > Various sizes to fit different types of counters
- > Robust measuring wheels with various materials and sizes
- > Covers lockable with key or knob
- > Different materials and sizes of levers to fit all types of stroke counters and application

- > Stroke levers: For mechanical stroke lever counter applications
- > Measuring wheels: Conversion of lengths to rotations
- > Covers: For mounting of counters and improving IP
