Instrumentation & Automation Solutions

Our History

Founded in 1974 by Huseni Rangoonwala, Oasis Group is a family-owned enterprise now led by its second and third generations. Starting as a process instruments trading house in Kolkata, it expanded to Hyderabad in 1998 and transitioned operations there by 2016.

In 2009, the Group diversified into pneumatic automation with Oasis Valves & Pneumatics. To tap into Middle East, Africa, and Central Asia markets, Lucent Industrial Solutions was setup in Dubai in 2024.

Our Business

Specialising in sensing and control solutions, industrial automation, and cable harnessing, we bring decades of expertise complemented by an in-house facility located in Genome Valley, Hyderabad. Our modern, high-quality solutions are backed by testing capabilities, including high voltage, insulation, resistance, and dielectric testing, ensuring unmatched reliability.

As an MSME-registered and ISO-9001 certified enterprise, we prioritise precision, durability, and performance. Additionally, all our parts and components are sourced from verified, reliable vendors to deliver trusted and consistent results.

Cable Assembly and Wire Harnessing

High-quality, custom cable and wire harness solutions for the mobility sector.

Our in-house capabilities include advanced tools, robust testing facilities, and certified quality control processes, ensuring reliable and precise performance.

Valve Automation

Services that include the automating manually operated valves, converting them to electrically or pneumatically operated.

Specialising in actuators, positioners, and controllers; we ensure precise control across industries like oil & gas, power, and water treatment.

PLC and VFD Programming

Expertise relating to testing and calibration services, along with PLC and VFD programming.

We handle complete installation and commissioning; delivering efficient, reliable systems for diverse industrial applications.

SENSORS AND CONTROLS FOR OEMs

Oasis excels in catering to OEMs with a focus on mobility; and rotating & special machines, with product range of:

Pressure Transducers / Transmitters & Switches

RTD and Thermocouples

Flow Sensors & Switches

Level Sensors & Switches

Solenoid Valves

Rail Speed Sensors

Rail Temperature Sensors

Slot Resistance Thermometers

Band Heaters

Miniature Encoders & Resolvers

Mechanical & Electronic Counter

Vibration Sensors & Accelerometers

TRANSMITTERS AND CONTROLLERS FOR PROCESS INDUSTRIES

Oasis delivers reliable and efficient solutions across power, paper, oil & gas, cement, and metal industries with our portfolio for process industries including:

Smart Pressure Transmitters & Differential Pressure Transmitters

Smart Temperature Transmitters

Flow Meters

Heavyduty Pressure Switches

Heavyduty Temperature Switches

Heavyduty Flow Switches

Heavyduty Limit Switches

Vacuum Contactor

High Pressure Pumps

Manual Valves & Control Valves

Fire-Fighting Valves

Valve Positioners

Industries Catered

Automotive

Electricity and Power

Defence

Metals

Water and Wastewater

Paper

Oil and Gas

Food Process

Oasis Instruments Company | Oasis Valves and Pneumatics

Plot – 2, TSIC Industrial Park, Survey No. 226(P) & 227,
Genome Valley, Turkapally Village, Medchal-Malkajgiri District,
Telangana – 500078, India.
